JOB APPLIED FOR
POSITION

Skilled Worker

WORK EXPERIENCE

Feb 2018- Present

WELDER / FORKLIFT OPERATOR

(ju) sihwa metal ansan

South Korea.

Job Responsibilities

- Operate forklifts safely to load, unload, transport, and stack raw materials, heavy steel components, and finished products.
- Perform welding tasks including MIG, TIG, or Stick techniques to join metal parts according to blueprint specifications.
- Interpret technical drawings, layouts, and welding symbols to determine accurate material dimensions and joint configurations.
- Conduct quality inspections on completed welds and materials, ensuring compliance with structural standards and safety codes.
- Maintain equipment and workspaces, performing routine forklift checks and welding machine maintenance for safe operations.

May 2015- Jan 2018

TEXTILE DYEING TECHNICIAN

(Ju) Baeyeongsaneop wijongbo

South Korea.

Job Responsibilities

- Prepare dye solutions and chemical formulations accurately, matching specific color standards and customer-requested shades.
- Operate industrial dyeing machines, monitoring temperature, pressure, fabric speed, and chemical levels during production.
- Conduct color match testing and visual inspections to detect shade variations, fabric defects, or processing inconsistencies.
- Troubleshoot processing issues and machine malfunctions to minimize fabric waste and maintain efficient production schedules.
- Adhere to safety regulations, environmental standards, and chemical handling guidelines to ensure a secure workspace.
